

# VINNYTSKA OBLAST COLLECTIVE CENTRE ASSESSMENT

Summary of IOM's CCCM Collective Centre Assessment | Q1, 2024

CLASSIFICATION: Unrestricted

## ASSESSED COLLECTIVE CENTRES ACROSS VINNYTSKA OBLAST

## BACKGROUND

In March 2024, IOM CCCM teams, in collaboration with oblast authorities and local civil society organizations, conducted CCCM Collective Centre assessment across Vinnytska oblast. Data was collected at the site-level at the request of the relevant oblast administration(s) and implemented through key-informant interviews with site managers as well by conducting observational assessments. All figures and narrative in this fact-sheet cover collective centres which are hosting (or are capable of hosting) 30 persons. Findings are indicative of the situation in the sites at the time of data collection. This report provides an overview in the following thematic areas: demographics, vulnerabilities, site management, site environment, health, water, sanitation and hygiene (WASH), food provision, and most urgent needs.

## OVERVIEW

In total, 62 sites were assessed, of which 61 were hosting IDPs at the time of assessment, with 1 centres empty but ready to host. There were 2,484 IDPs hosted within these sites, meaning that each site, on average, hosts 41 IDPs. Sites had a collective total hosting capacity of 3,077 IDPs. The most common types of site were dormitories (52%), followed by health facilities (24%), and government buildings (6%). Overall the highest reported priority need was found to be upgrades and repairs to structural site elements (e.g. walls, rooms, windows), which was reported in 30% of sites.

## KEY FIGURES

**62**  
collective centres (sites) assessed across Vinnytska oblast

**2,484**  
IDPs hosted in collective centres (sites)

**3,077**  
total hosting capacity

**52%**  
of sites are dormitories

**97%**  
of sites report that IDPs intend to stay until further notice

**77%**  
of sites report the presence of persons with disabilities

**90%**  
of sites are managed by the government

**33%**  
of sites report presence of unaccompanied elderly persons

**42%**  
of sites do not have a health worker present or regularly visiting

**25%**  
of sites are not connected to central sewage system

**30%**  
of sites reported upgrades and repairs to structural site elements as their highest priority need

## DEMOGRAPHICS

Out of a total of 2,484 IDPs currently hosted across the sites in Vinnytska oblast, 60% are female and 40% are male; 24% are minors (under the age of 18), 48% are adults (aged between 18 and 59), and 28% are elderly (over the age of 59).

## VULNERABILITIES

A total of 316 IDPs (13% of total IDPs) across 47 sites (77% of IDP-hosting sites) were reported to be persons with disabilities. Critically, 75% of sites are not fully disability accessible, making this group of individuals even more vulnerable. Unaccompanied elderly persons were also reported across 33% of sites, persons with chronic diseases in 31% of sites, and pregnant or lactating females in 28% of sites.

## SITE MANAGEMENT

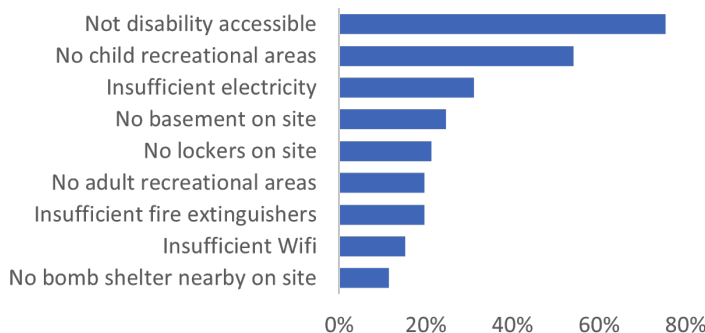

90% of sites are managed by the government, 3% by other actors, and 2% by religious organizations. 85% of sites report staff presence 24 hours of the day, 11% report presence in the daytimes only, and 3% report periodic visits. IDP registration upon arrival is reported in 100% of sites, and an allocation plan for vulnerable groups exists in 26% of sites. In 11% of sites, IDPs are reportedly being charged money to stay.

## SITE ENVIRONMENT

In 93% of sites, the site manager reports that they expect the site to remain open for more than six months, no sites report that they expect the site to close within 6 months, and 7% are unsure. 23% of sites report the availability of space to expand. The below chart presents gaps in site provision of key items and services. Critically, 75% of sites are not accessible for persons with disabilities, 31% of sites have insufficient electrical capacity, 20% of sites have insufficient fire extinguishers, and 15% of sites have insufficient Wifi.

### Lack of essential items or services (% of sites)

## HEALTH

Problems with accessing medicines were reported in 5% of sites, while 42% of sites report the absence of an on-site or regularly visiting health worker.

## WASH

On average, there are 10 toilets and 7 showers per site for the IDP population. Toilets and showers are not gender-segregated in 75% of sites, nor are they disability accessible in 70% of sites. On average, there are 4 functional washing machines per site. A critical 25% of sites are not connected to the central sewage system. Across all sites, the primary way by which IDPs accessed drinking water was by tap water, as reported in 48% of IDP-hosting sites. The chart below presents a full breakdown of the various methods by which IDPs access water.

### Methods by which IDPs access drinking water (% of sites)

## FOOD PROVISION

The most frequently reported way by which IDPs have access to food in sites was found to be via people purchasing and cooking their own food (89%), followed by site provision (16%), and NGO provision (3%). 13% of sites reported that there was no kitchen space available for IDPs to prepare food, and a higher 32% of sites reported that there was no available communal space for IDPs to eat food.

### Ways by which IDPs access food (% of sites)

## MOST URGENT NEEDS

The most urgent needs in sites across Vinnytska oblast, as identified by site managers, are displayed in the table below. Upgrades and repairs to structural site elements (e.g. walls, rooms, windows) were found to be the highest priority need, as reported by 30% of sites, followed by cleaning supplies (16%), and shower upgrades & repairs (10%).

Table 1: Highest priority need (% of sites)

1. Upgrades and repairs to structural site elements (e.g. walls, rooms, windows)	30%
2. Cleaning supplies	16%
3. Shower upgrades & repairs	10%
4. Large kitchen appliances (e.g. fridges, stoves)	8%
5. Electrical upgrades and repairs	8%
